WORKTOOLS

Adaptable Workspaces

In an effort to make the most of office environments, companies are reducing the number of designated workspaces and moving toward an open plan seating model. Both mobile workers and resident workers are happier and more productive when a space supports their specific jobs and workstyles. Organizational Worktools give employees the freedom to customize and adapt any space to meet their needs—increasing morale and boosting output.

IM#: 14-0000776 | SM: MONITOR BRIDGE (STANDARD GREY FELT & ARCTIC WHITE), PERSONAL BOX (ARCTIC WHITE), LAUNCH PAD & DIVIDER SCREEN (ARCTIC WHITE), TOOL BOX (ARCTIC WHITE), LEAP (COGENT CONNECT WASABI)

SLATWALL

Slatwall increases productivity by taking clutter, filing, monitors and supplies off the desk. Designed to create a sense of privacy, it is equally effective when mounted on a desk, panel or wall.

SLATRAIL

Created for open office layouts, SlatRail helps organize workspaces and improve productivity. Mounted on a desk, panel or wall, SlatRail provides a structure to hold most worktools.

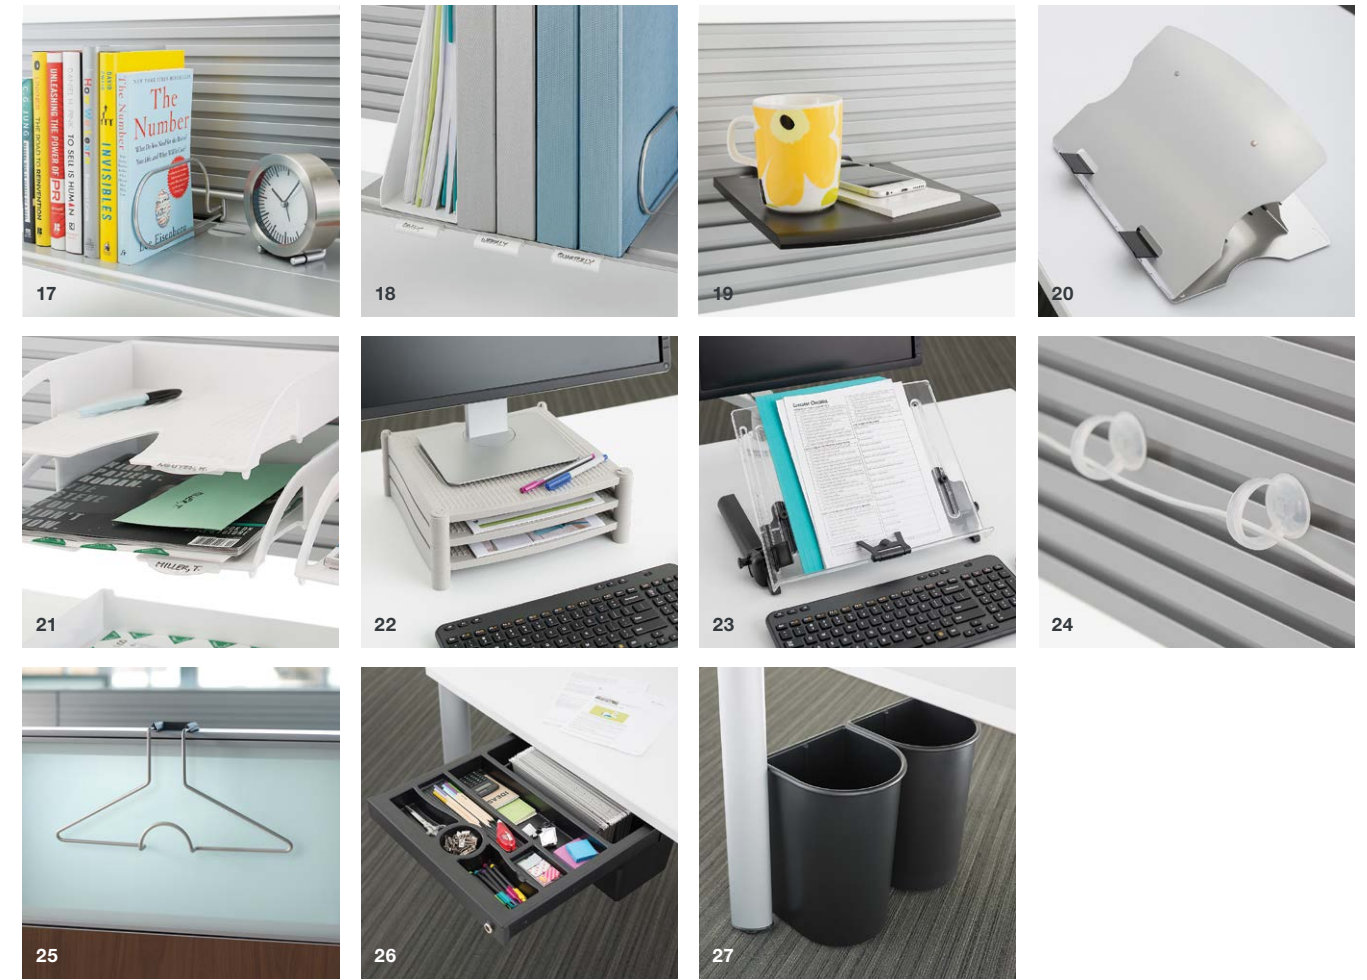

IM#: 15-0011144

SOTO

Designed to seamlessly integrate with existing settings, SOTO® worktools give workers the ability to customize and maximize their workspaces. A breadth of multi-functioning and hardworking tools make the most of existing real estate while also supporting the needs of residential and mobile workers.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
