GREATER MOVEMENT. BETTER THINKING.

Providing workers with environments that support wellbeing is essential to the success of an organization. Migration™ height-adjustable desk allows employees to transition from seated to standing height postures throughout the day, stimulating mental and physical activity and promoting wellbeing in individual and group workspaces.

Cable ties and clips are included to manage the desk cords.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path.

It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result.

In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
